The list is just a sample and is not a complete list of what may be available at various locations									
Green Forest may also be available at some Harris Teeters									
All products are 2-ply except for Paper Napkins which come only in 1-ply									
There are some 1-ply products and natural (beige) color products that are less expensive									
% Recycled means both pre-consumer (recycled from the manufacturing process) and post-consumer.									
% Post-Consumer means recycled from previously used materials, mostly office paper and newspaper									
PCF means Processed Chlorine Free - produced without using chlorine in the bleaching process (the most preferable)									
ECF means Elemental Chlorine Free - less preferred method using chlorine dioxide but not as bad as using elemental chlorine
